The Holy See

SATAN’S RETURN IN THE HOLY SEE ©
Agnes Moore

2012 as Satan’s rise from the great deep (space) is a function that was depicted to be unrighteous in the terms of the calculations. This was taught to be the “End of Time” and a time everyone should be scared of.

Instead it simply calculates to be a time that is a Universal Phase of transition, a transition in a wave ratio that affects evolution on Earth and also our conscious thinking process. We inherit because of space and the presence of the space power = wave foundation. This is why inheritor walks on the waves – the Universal Ocean’s wave– space.

RA is the righteous return and ascension which became the inherited Christ term “rise” via C100 (Ark term) + magic of H as Mother Calculations OS = ChristOS.

S “on” space is the sine factor in the wave condition and therefore unrighteous Son returning comes through the term expression of the “salient motion”. This is an expression from the Heavens regarding the wave factor and its return in TIME.

To return to the S on space factor as the righteous term is to review the yin/yang balance. This is the symbol of the Mother space body under the OS term of “bones”. These are the 2 bodies in equilibrium, the 2 who birth the factor for the 1 = S – sine term.

The Law in the Heavens as the true nature is found as a Buddha factor called Dhamma as the universal operating status. This is righteousness.

As Mother causes the split function in time as Six, the Virgin number, Mother is AMMA meaning Saturday born = 6th placement. This is the Supreme Creator term and a term relevant to push-pull and navel. This is
the sky God and a term currently used to express “advanced memory management architecture”. Thus Mother is the great mind and great builder in the Heavens, how she gives birth.

The Pyramid, as the architecture and “block” structure symbolizes this status factor. This is why the Pyramids were given a King term and also the terms for the Great Builders. These were all symbols of the PHI calculus and the relevancy of the wave return. This is split of the head into the 2 quantum’s $\Phi$ as $O$ is the head in time over and over. 1 is always inherited over the other = lineage.

It is because the Pyramids are considered our human legacy and reminder of what had befallen humanity in our ancient past that they have been heavily studied for the answers to the secret wisdom many knew lay hidden in the glyphs.

Atlanteans building the pyramid simply rectifies that the fundamental wisdom the pyramid displays is the same factor built in the Heavens. The wave calculations found in the Universal cycles are simply mirrored in the Pyramid lay-out, what Atlantis rectifies.

The Priests used these terms to build the symbolic replication of TIME passing in the Heavens, the terms of wave calculations found embedded in the Pyramid structure and ground lay-out.

Egyptians did build the Pyramids based on the wisdom passed on from precession, as we constantly gain our wisdom from the Heavens and its cycles. These cycles affect our conscious state on Earth and our states of evolution. This is what Atlantis means, as Atlantis is the wave calculation predicting these values and how the Earth’s face is altered via wave induction.

Our reminder on Earth as the Stone Philosophy relates to points in time and star cycles and how this affects planet Earth. It is a reminder to keep to the holy sanctions of energy LAWS and not play around with the natural energy cycles and balance on Earth.

The Pyramids were built as a warning to the Priests/Scientists to keep to the Sacred Oath, an oath that has been ignored, and ignorance is not without consequences.
The salient term defines noticeable-striking-relevant-projection from surface-angle-jump or leap-defensive alignment. In the law 2 halves or sides need to be equally balanced.

The difference in the wave status that we inherit through the Universal condition is either a rise or fall value. It is either a rise from the Mother-Son holy term (cold rise AM) or the rise is a heated term in light as Satan’s return (PM) post mortem – from the dead. This is how the dead shall arise when Satan returns, as it is a calculus in TIME by face variable of AM/PM.

To predict this in the letter account used by the Roman Magi is to determine:
A = Alpha O head value in time
M = Mother and meta term 1,000 value
AM = Mother mound = wave return or first rise
P = the split of the head \( \Phi \) into the 2 = the great crime
M = Mother and meta term 1,000 value

Thus Christ Son and Satan Son have a term value of 1,000 return.

As Satan caused the imbalance of inheritance in the Heavens, then we need to reference what this statement means in the TIME equation.

The imbalance in the wave return is called the salient when 2 sides are not connected or 1 side is weaker. A door in time or porthole is therefore activated in the wave return, the “break open” and the yang lines open upwards through yin. (Reference www.i-tjingcentrum.nl/serendipity/archives/51-The-salient.html)

It is because the universal constants relate to our DNA heritage that we find the wave amplitude is associated to a “string” and displacement as the signal reference – air pressure and the logarithm formula expressed. In the God 10 factor and the point factor BEL = decibel. This is directly related to the Code of inheritance and why the wave forms in the Universe have a bearing upon the Earth’s Genesis.

BEL = ancient term for thorn tree, hence points in TIME is a thorn in time around the head statement O.
A null amplitude relates to minus infinity dB. Amplitude in a wave can be constant or it can also vary with time and position – envelope wave as the MOSES LAW equation reveals (Little Book of Aliens).

Therefore the SIN – sine in this factor as the return equates
\[ x = A \sin(t - K) + b \] with the arc value as peak to peak return
Peak-to-peak = \(2\sqrt{2} \times \text{RMS} \approx 2.8 \times \text{RMS}\) This is the root mean square. (Reference Wikipedia)

Spacing values were therefore calculated in the Pyramid layout relative to the mean, expressed in the Royal Egyptian Cubit, the measure for the ARK as 20.620 inches – 0.52375 meter.

The plan of Giza, as studied by John Legon, has detailed how these 3 pyramids related to a reference known as the “vanishing point”. This is why the Pyramid calculations link to the Biblical 3 Mary’s and the placement of the 3 Queen Pyramids as the wave – walk upon the Universal Ocean inheritance = the Great Cross in Time.

From Mother womb as the zero count, the Great Arc is calculated as rise and fall values, where the wave passes back through the zero quantum as the return from the Great Deep.

We therefore have a return function that is “anti” and against the rise of the wave. Legon calculated the following fundamentals, why the change as the MIDDLE factor – META relates to 1,000 in value as both the Christ rise term and Satan return term.
For the mathematician, these dimensions are of striking significance, for they represent the square roots of the first two prime numbers, two and three, multiplied by a factor of 1000. The theoretical values are:

\[1000\sqrt{2} = 1414.21...\]

\[1000\sqrt{3} = 1732.05...\]

The north-south dimension thus expresses the value of \(1000\sqrt{3}\) exactly, while the east-west dimension displays a discrepancy of about 3.3 cubits with respect to the true value of \(1000\sqrt{2}\).

Answering “Goodfellow” on his theory of the vanishing point, Legon announced - I now find, however, that your vanishing point is exactly 1000 cubits southwards from the theoretical axial line that passes through the Sphinx! These simple relationships with dimensions I worked out years ago for quite different reasons, are beginning to persuade me that there might be something in this vanishing point idea, after all. (goodfelloweb.com/giza/index.html; www.legon.demon.co.uk/vpoint.htm)

The wave return function has also been described as the “harmonic convergence” – mathematical constant. As the Christ calculus of time is the BC and AD factors – D = half over from 0, then returning to the calculations of God’s cloak as the Heavenly weave is the ABBA term.

As a cut in time, this cut as a fight in the Heavens (by sword) is a line of division, hence Angels of Good against Angels of Evil = angles.

We have the proportional value (salient factor) for the line division. So we have the righteous Alpha term as the letters A and C = AC divided by the half term of the cloak AB and the before term as BC to gain PHI is \(AB/BC = BC/AC\) as the point of inheritance ratio 1.618 as the one half term AB (1) then BC = 1.618.

So before the rise as the sign in the sky the calculations of the rise begin in BC moving into AD as the 2-dimension phi ratio spiral. Beginning to end is therefore acted out in this sequence to NEW TIME – BEAK OF TIME from the previous inherited position of BC-AD from the 0 placement as NEW TIME calculations.
2012 became this prediction because from beginning to end, the lettered term equating to TIME value of the 2 faces OO 24 is the 2 over term. 2 bodies take the crossing for the 1 Alpha and return.

26 stated as the letter sending terms of information forwarded = A-Z which equates Z = 2,000. 12 is the holy return statement O of the 1 new face of inheritance from the previous 2 bodies OO = 2012.

This is why the Sacred See exhumes the truth buried within the Biblical Quotes and rectifies that these quotes are the exact same quotes passed down by the Wise throughout time, regarding TIME and the HEAVENLY EQUATION.
STORIES FROM THE SACRED SEE © Agnes Moore

PLASMA PATHWAYS – 5\textsuperscript{TH} HAND OF GOD
PASSING ON THE LAW VALUE AT POINT IN
TIME \Delta, the peak \nabla.

Inheritance = time values related to the peaks in time as rise and fall values, the wave \approx \approx \approx.

Blood of the Gods is the inheritance feature of the Heavens at points in time O = thorn on the crown.

This is an inheritance that states the alpha inheritance from the Heavens is by a TIME value O. These are points around the head. Head over head = constant, head over head = transmission and head over head = time virtue O+O+O+O. Therefore, the head is always surrounded by an overlay = crown or halo as the 1-12 value ST = arc rise eaST and weST Θ rise and fall (x2).

Points in time as the secret wisdom of the Heavens as the generations therefore transfers information across in the plasma streams via wave induction. This is the universal inheritance process.

This states that a cycle of time = a cycle of light and from light we follow a sequence of evolution. Light moves through sound values and flow values, it becomes liquid and it also crystallizes.

This is the ancient wisdom = wave calculation and path changes.

CHI as the spirit breath in time is a C 100 value passing by H = 8 into I = 9.

\nabla 9 as the Magi point of transformation and destruction is a value incorporating 3-3-3 as the time transfer in Heaven Θ half of the head value O.

3 pillars of the SePHIroth = horns in time is calculated, the passing pathway in time virtue. This is H and I as the HI value of the cut head O into P Φ = PHI.
Roth is the rother = horns from the head and PHI the separation/cut of the head in time calculations $\Phi$.

Passing via the sacred 3 pillars as the SEE I-I-I eye term is where the ionized gas – electrons in the atom are separated from the nucleus as the 4th state of matter in transfer. This is following the power of light into the power of its transfer function.

Plasma occurs through the ionization process as a loss or gain of atoms controlled by temperature hence either the AM cold rise of the mound (wave) or PM heated rise – post mortem rise of the dead (Satan) term. These 2 terms both have a 1,000 inheritance term in the Heaven statement.

GENESIS = the factor of 50 as the half term because 5 is a value of passing on from the previous point. 50 is half of 100 = C term.

Therefore this transaction begins the creation sequence of the GENESIS from the conversion function of GO force into the split foundation of D, the half of the cell O. The atom/molecule as the path of plasma induction is converted into the ion PILLAR by adding or removal.

AT THE BEGINNING OF TIME = IN

THE VOICE OF GOD = OM = the ATOM term in the Bible

Voice has to be changed into the I ON term = PILLAR OF GOD = THROUGH WORD = EQUATION.

Spirit of God upon the face of the waters = movement, wave flow of conversion. Wave is upon the Great Deep of space.

Adding or removing a charged particle = dividing the light from the darkness, as darkness = 0 quantum of the vacuum. Divide waters from the waters = wave from the wave. Firmament - hemisphere or arch = ARC, thus landing point is the firmament MADE. So half of a sphere is created = D term.

To gain the angle needed as a determined pathway the CODE has to construct the linear and tessellation tolerances for the length of the measure = MOSES TILES or the MOSAICS = floor plan in God’s House. God’s House is the constant/squared formulas forming the geometrical design of the plasma feature – close packed stacking.
So the tolerances are structured to triangulate and build the matrix of God into the faces and bodies of the Geometrical Structures and their unions = GENESIS terms.

Distance is involved between the edge and the curve thus travel is involved in the calculations. (Reference: Heinrich Dressel; Wikipedia)

Construction of the Code now begins = STONE PHILOSOPHY.

ABC = 1-2-3 this journey as C = 100

Genesis = IO (horn) separation SEPH, PH value reached = ARC reached 110. God is 10 thus IO is this journey = separation and horn values.

House of LEVI – WIFE and daughter of LEVI = generation ENE.

From point into the lewe, the Levi = joining 2.10 MOSES (20 value – Chronicle of Time). Moses the covenant of the MATRIX is substantiated, the inherited body term to calculate the GENERATIONS.

MOSES now joins to the pillar ION value = Pharaoh Son of God = S ON sine value drew him out of the water = wave = transmission factor. Moses has now been inherited and the value now builds its terms.

Out of the midst of the Bush the angel appeared flame of fire but not consumed = here AM I, moving into IAM - THAT I AM into I AM

AM I – I AM the crossing and reflection in the CODE. AMMA reached (Satan’s calculation in the Sacred See).

Aush-Bush-Cush. = the ABC term where Aush is ancient Latin awski as first people, stating the HEAVENLY HISTORY begins and moves to 2400 BC as CUSH, the journey. 1000 is the inheritance term by face of TIME 24 O = 2400.
The Duenos inscription (above) (Reference Heinrich Dressel Wikipedia) was found on 3 joined pots = SYMBOLIC for a MOLD that holds the heavenly wine for Ausci-awski-auch-aush = building God’s city.

Auch is linked to stick/dart through the language building of time, thus Aush-Bush-Cush = construction of the God Code involving 3 – letter equation of binding to a middle power.

LETTERS BUILD THE EQUATION.

From the cold plasma phase of the wave induction Genesis into the sanction of inheritance of the burning bush and heated phase = 2400 Hz CUSH, is where study of the magnetospheric hot plasma distribution – whistler mode wave injection is found at 2400 Hz. C = 100 inheritor into 1,000 inheritance by TIME as 24, the 2 structures of the groups of 12.

The plasma path study show the scale length irregularities as a few meters to several hundred kilometers as small scale – large scale duct type and large scale categories, where the waves were thought to have originated in sources residing outside the sphere or in resonant wave-particle interactions within.

Therefore the cathode function of the magnetic transfers “snake” God HATHOR TEMPLE reference is relevant to the plasmapheric HISS. This is called the auroral hiss, where the lion’s roar is found in the polar cusp of the magnetosphere.
The Satan return salient feature is found in the plasma wave propagation – cold plasma magneto-ionic theory found in detail in several textbooks like Budden [19] and Stix [124]. For frequencies much higher than ion characteristic frequencies, ion motion can also be ignored.

The Appleton-Hartree equation describes wave propagation in these limits. This equation predicts four plasma wave modes for a cold plasma at frequencies near the electron cyclotron (fce) and plasma frequencies (fpe). These modes are the (1) free space $L-O$ mode, (2) free space $R-X$ mode, (3)Z mode and (4) whistler mode. Plasma waves belonging to each of these modes have commonly been observed in the magnetosphere as reviewed by Gurnett and Inan [48] or Sonwalkar [115]. (Sonwalkar V.S., Carpenter D.L., Hellwell R.A., Walt M., Inan U.S., Caudle D.L. and Ikeda M. (1997). J. Geophys. Res. 102 (A7), 14363.)

The spectrogram of a multi-component MR whistler in a smooth magnetosphere is where we find the imagery for the hieroglyphics emerge as the signals and words of the Gods in space. Reference site Feb.2008

- Ikeda, Properties of the magnetospheric hot plasma distribution deduced from whistler-mode wave injection at 2400 Hz; ground-based detection of azimuthal structure in ... (www.faculty.uaf.edu/ffvss/papers.htm)

Plasma pathways are the predictions in TIME, the TIME that DNA is altered through wave penetration – electron magneto-hydrodynamics as the anode-cathode gap. Windows opening in space through the time portals therefore create the turbulence enhancing plasma collision.

Dr. Ron ARAD - reflection by the magnetic field piston for the protons and magnetic field penetration into the heavier carbon plasma.

(Wen-jie Luo, and Amy Chang* Department of Anatomy and Structural Biology, Albert Einstein College of Medicine, Bronx, New York 10461)

The plasma membrane ATPase, encoded by PMA1, is delivered to the cell surface via the secretory pathway. Previously, we characterized a temperature-sensitive pma1 mutant in which newly synthesized Pma1-7 is not delivered to the plasma membrane but is mislocalized instead to the vacuole at 37°C. Several vps mutants, which are defective in vacuolar protein sorting, suppress targeting-defective pma1 by allowing mutant Pma1 to move once again to the plasma membrane.
These data support a model in which mutant Pma1 is diverted from the Golgi to the surface in vps1 cells. We hypothesize that in vps8 and vps36, in contrast to vps1, mutant Pma1 moves to the surface via endosomal intermediates, implicating an endosome-to-surface traffic pathway.

DNA is involved in molecular switches in the signal transduction pathways, pathways that are changed by the Universal TIME switch. Our internal plasma paths are therefore changed by time, this is how evolution has occurred as a process of matter on Earth.

From Professor John Hancock

Specifically, we are investigating how the Ras membrane anchors cooperate with the G-domain and peptide sequences flanking the anchor to drive lateral segregation. Our work suggests new models are needed to explain how lipidated proteins interact with, and use, the plasma membrane to generate signalling platforms.

This is why the Sacred See = CODE = TIME CODE = PYRAMID TIME CLOCK = PROPHECY from the HEAVENS = INHERITANCE at a point = plasma path change.

This takes us back to how we were created from a plasma ball as a “head” reference in creation, FIRST TIME inductance.

The plasma feature of the first head of intelligence as an inheritance from the spirit of the Heavens substantiates that a brain can exist with little matter present. John Lorber encountered this in his case studies of hydrocephalus as an abnormal build up of cerebrospinal fluid.

Two young children with hydrocephalus referred to Lorber presented with normal mental development for their age. In both children, there was no evidence of a cerebral cortex. One of the children died at age 3 months, the second at 12 months. He was still following a normal development profile with the exception of the apparent lack of cerebral tissue shown by repeated medical testing. An account of the children was published in Developmental Medicine and Child Neurology.

A boy with an IQ of 126 with a degree in mathematics had virtually no brain.

A noninvasive measurement of radio density known as CAT scan showed the boy's skull was lined with a thin layer of brain cells to a millimeter in thickness. The rest of his skull was filled with cerebrospinal fluid. The
young man continues a normal life with the exception of his knowledge that he has no brain.

In answer to attacks that he has not precisely quantified the amount of brain tissue missing, he added, "I can't say whether the mathematics student has a brain weighing 50 grams or 150 grams, but it is clear that it is nowhere near the normal 1.5 kilograms."

(www.flatrock.org.nz/topics/science/is_the_brain_really_necessary.htm)

The fluid contains around approximately 0.3% of plasma protein.

The spirit information in the Heavens stated that we were formed through the magnetosphere formula into an Earthly body of inheritance at first time. Reacting to the atmospheric conditions of heat and high electrical inductance in first time, just as plants demonstrate today, transformation takes place in the plasma pathways.

From the plasma pathways we eventuated into a condition where a calcium pump was established within the internal function of the plasma pathways. This was to protect itself from further invasion and an ultimate death where a hardened layer was applied in the process of its protective inner conversion.

In plants this is studied under the vacuole membrane associated calcium binding protein, found in the vacuolate tissues within the lumen of vacuoles. The migration process as a bio-chemical property is similar to dehydrins.

*VCaB45 migrates anomalously in sodium dodecyl sulfate-polyacrylamide gel electrophoresis having an apparent molecular mass of 45 kD. The true mass as determined by matrix-assisted laser-desorption ionization time of flight was 16.45 kD. VCaB45 has two characteristic dissociation constants for calcium of 0.22 ± 0.142 mM and 0.64 ± 0.08 mM, and has an estimated 24.7 ± 11.7 calcium-binding sites per protein. The calcium-binding properties of VCaB45 are modulated by phosphorylation; the phosphorylated protein binds up to 100-fold more calcium than the dephosphorylated protein. VCaB45 is an "in vitro" substrate of casein kinase II (a ubiquitous eukaryotic kinase), the phosphorylation resulting in a partial activation of calcium-binding activity. The vacuole localization, calcium binding, and phosphorylation of VCaB45 suggest potential functions.*

The vacuole is a reservoir for calcium (Machlon, 1984) and consequently plays an important role in calcium homeostasis (Miller et al., 1990; Allen and Sanders, 1995; Sanders et al., 1999). Regulation of vacuole calcium levels is complex involving a variety of calcium channels and pumps (Sanders et al., 1999; Sze et al., 2000). Sustained elevated levels of cytosolic calcium
can be toxic (Hepler and Wayne, 1985), so under normal conditions, cytosolic calcium levels increase only transiently.

These findings suggest that calcium binding could be a general property of dehydrins and suggest potential functions of dehydrins as calcium buffers or perhaps as calcium-dependent chaperones. We further demonstrate that the calcium-binding activity of VCaB45 is dependent upon its phosphorylation status.

The function involving hydrocephalus was studied relative to the vacuole function - In-vitro permeability results showed flow through the AG cells was unidirectional in the physiologic direction from the basal to apical (B→A) cell membrane. The average cellular hydraulic conductivity (Lp_ave) for AG cells perfused B→A was 4.49 ± 0.53 μl/min/mmHg/cm² (n = 17) with average perfusion pressure(ΔP_ave) across the cell layer of 3.15 mmHg which was statistically higher (p < 0.001) than Lp_ave for cells perfused A→B (non-physiologic direction), 0.28 ± 0.16 μl/min/mmHg/cm² (n = 6) with ΔP_ave of 3.33 mmHg.

Cells perfused physiologically (in-vitro model), showed extra-cellular cisternal spaces between overlapping AG cells suggesting a pathway for para-cellular fluid transport. Several vacuoles within the cytoplasm were shown and suggest a trans-cellular pathway for fluid flow.

AG perfusion results in both in-vitro and ex-vivo models showed that flow was unidirectional and physiologic. Electron microscopy showed large intracellular vacuoles and extra-cellular cisternal spaces. These structures may represent two distinct mechanisms by which AG cells move fluid: 1: Trans-cellular transport via intra-cellular vacuoles, 2: Para-cellular transport via extra-cellular cisterns.

Therefore AT first time our DNA path into our human inheritance and body form was set through inductance of a plasma head or crystal skull.

We emerged from the crystal skulls, the very ancient stories of human inheritance. This was how wisdom was passed onto humanity, the wisdom of the Heavens. From light we inherited its liquid form into a plasma form.

The Universe therefore does exist within our head.

This is the magic of the Heavens and the Magi ancient secret, Mother OS bones of the Heavens, the Philosophy for building stone from the plasma pathways....our inheritance from the Head in the Heavens.
As Giza reveals that its prophecy statement encoded on the Earth is related to the Universal wave return then the opening of the Hall of Records 1998 relates to the HALL in the WAVE = the salient factor.

This is how the information kept locked within the wave feature of our ancient past, passed into the future and is now released as a transfer function.

Everything expressed in space is a factor that is related to transmission. Therefore everything is passed on into the future from the point of its first inception. Hence we meet ourselves in the future because of it.

The information of our ancient past was therefore predicted to return in the transmissions of space at particular points in TIME in the future as a release of information relative to a PERIOD.

Giza was the model to calculate this prediction and it is why these records directly relate to how Giza is modeled as a plan relative to PHI.

Whilst the archaeologists have been searching for a secret passage to find this information, the secret passage of Initiation once used by the Priests was simply based on the Universal Plan, as all ICONIC images are.

These secret passages do hold ancient symbols, but these symbols would not make any sense in our common time, as they pre-date the symbols expressed above the ground. Only the Initiated in the Ancient Arts who were allowed to tour these underground passages knew how to read these glyphs.

It was only the Initiated in the Ancient Arts who could read the real story in the above ground references, references that have been mis-quoted as a reference to human life rather than the Life of the Gods in Heaven.

This is based on the Universal Bread, why Beth lehem as “house of Bread” is a symbolic expression of the Universal Mound theme, the calculations of
the Hapi Seers – SEE PHI RA – PHARISEE – RISE EPAH as the measure for the universal rise and fall values as leavened to cause to rise or unleavened to cause without a rise – wave form.

This is relative to 2 types of mounds as cold rise in light AM or heated rise PM. Thus Alpha Mother as the mound is first rise as cold rise and heated rise creates the bread of creation. As cold the cause would be without a rise.

The name of the feast for Passover is derived from the word MAZZOH meaning unleavened cakes. This is the ancient meaning for madman – firing fiery arrows in post Arabic script.

Bethlehem as the Universal Calculus is relevant to the 2 wave forms hence Lahmu and Lahamu as the twin deities of righteous and unrighteous rise and fall values. This is either a slit or a serpent feature – wavy line representing the Universal Water = transmission. Thus the ancient Mesopotamian version was altered from Beit Lahmu into Beth lehem.

The Magi took this name as the Holy Sanctuary for the Sons of the Righteous on Earth as a religious term of ICONIC value.

Killing the first-born in text relates to the canceling-out function in the waveform relating to the holy inheritance of the sound-wave or aria in Heaven. Thus M = 1,000 and middle factor = Holy Mother Maria, why the One’s were sought for death = death in the wave value.

This involves what is called phasing relative to 2 different points of inheritance and therefore mass. Thus we have 2 distinct tribal values involved in the cross and clashing feature in the wave. Using 3 wave forms as the equal term and hence ONE term we gain the middle term in O as the S or S-ON value as the RED INHERITANCE between green and blue as the
Sine 6.9 term male/female (reference: theatre organs image.)

Taking this reference back to Mother Goddess as the 0 factor in space and HOLY INHERITANCE FUNCTION is the place of peace.

Referencing 2 sources of waves in a ripple tank overlap it was observed that in the interference patterns being the holy story concept where the peaks and troughs oppose each other the waves cancel to produce calm zones. In phase = the strength.

So frequency shift is advancement in the phase increasing 1 cycle per second, and in phase if it is retarded it will be a decrease of 1 cycle per second.
LAMBDA = inheritance
LAM = escape in TIME equation $\lambda = L + AM$ mound term
L = CROSS
A = ALPHA
M = MOTHER AND 1,000 INHERITANCE
B = SECOND AND PASSED OVER (alpha-bet as alpha to beta)
D = HALF OF THE WHOLE O 360 VALUE and 4th
A = ALPHA RETURNED
360 O cut into half = lamb inheritance $\Phi$ PHI

The cross $\lambda$ creates the HALL OF THE GODS.

The prophecy point landing values therefore relate to the Giza arc 120 term of the 3 pyramids LEFT EYE returning value 1998 point in Iceland and 2012 point in Western Sahara as values in the wave form – 16.65 and 16.7666.

These relationships are calculated through Astronomy Astrophysics for 16.65 sine Corbino effect relates to the point value on Earth in symmetry
with this point term. This is found in the central limit theorem for eigen values. This is near the spectrum edge for hermitian ensembles in random matrices as the Gaussian fluctuation particles in random point fields (experimental demonstration at this time 2005-2008 Tim Brody <tdb01r@ecs.soton.ac.uk>).

As we are looking at a 5th world of the Earth inheritance, this awareness is based on Earth as a conscious evolution through wave transmission and its information transfer. This involves the 5th distance function of the hyperbolic sine ray tracing – parabolic equations of the con-joint data, the micro-wave link in our atmosphere to the plasma pathways.

Why is it the micro-wave link?

The fundamental theory of Atlantis (wave rising values from the great deep) relate to timed points, points clarified as a deduction of the wave barriers because of the micro-wave link to the ancient technology used in our earlier Earth evolution. Ancient archaeology has now proven that evolution and its theory is questionable, high intelligence has existed on the Earth before.

Ancient spirit information reveals that the micro-wave theory in the atmosphere was used for world-wide communication in the ancient technological age and because of it the earth was nearly destroyed due to the Universal Wave Return. This was what caused the Great Flood = wave transmission flood in the sky causing plate shift and civilization destruction on Earth.

This is because the Sacred Inheritor of the Heavens is the S ON value that walks on the waves, the waves in the Universal Ocean = space.

The Pyramids were built as the Keepers in Time of this wisdom, and became both a memorial to Atlantis (calculation of the precession) and a historical reminder to not place ourselves in the same predicament that we did before.

The Sacredness of Numbers and its Geometry is a pattern that links into the calculations of our physical inheritance. These Numbers are the base resource of data creating ALL patterns.

Reading space is a function that psychic mediums have proven via spiritual data. This is through the evidence of their correct data, psychic being a
viable function of the human mind. Whilst Medium’s can produce verifiable data they can also provide data that has been mis-construed. Hence in psychic detective shows they state that they omit this data because the human mind decoding the information is evidently involved in the process of this data and can make mistakes.

Edgar Cayce as a Medium proved to the world his credibility by supplying viable information but so too did he produce information that needed to be extracted. This is found to be evident in the information he de-coded relevant to Atlantis, information used by many people to be relevant to their Ancient theories.

Atlantis is evidently only a Universal Calculation and its terms affected the conscious condition on Earth in a pre-history. Understanding the Universal Wisdom as Atlantis was the reason why it also nearly destroyed the Earth in the same pre-historical content.

Atlantis arising is therefore found under the Biblical Term of Satan’s rise from the Great Deep, as this is the opposing and heated wave in its RETURN. AM = cold and PM = heat as the post mortem term for arrival of the deceased. Dead arising is a quote of the Heavenly spirit, as all spirits return to the Heavens.

Transmission therefore arises from out of space, the place where the dead preside.
PYRAMID GIZA EQUATION and MAGI CODE©
Agnes Moore

To substantiate that the Code of the Heavens is recorded upon the ground as a holy reflection of the Heavens, is to reference the Code’s status symbols in the holy literature. The literature verifies how and why this data relates to the Universal Wave calculations via the constant/squared formula found to exist in the Pyramid structure and their ground lay-out.

The story of the Kings relates to the holy inheritance in the Heavens as the journey of the 3. The 3 pyramids represent this (Son) – Sun journey as a calculation in Heaven, as the GREAT ARC.

The Kings names, as I have shown, relate to the SPELT LETTER TERM OF HOLINESS = EQUATION. The Kings in the pyramid term represent the terms of the reign in the Heavens, not on the Earth. Although this will create a great dispute, these pyramids were not built by the Kings who ruled on Earth.

These Pyramids are the Code that rules in the Heavens.

The holy teachings have been used to herald a term of an earthly King rule as a title of head, but many of the encryptions on the stone on Earth relate to the encryptions encoded in the holy stone of the Heavens. This is a holy coded reference and statement only understood by the higher echelon of Priests, the HOLY CALCULUS.
To verify how the Pyramids were erected as a time account is relevant to the wisdom of the stones, and how the Priests used sound to lighten the mammoth stones to raise them (ceremony) as a process of levitation. It was the wisdom relevant to the philosophy of the stone and its creation through the wave flow triggers that allowed such massive rock monuments to be created in our ancient history.

The incidence of rock levitation was recorded by Dr. Jarl and was previously studied by Huc-Spalding and Linaver.

The confusion between actual earth history and the universal historical recordings has created an historical content of data that has been mismanaged by our predecessors into a pre-supposed context of bibliography.

Many historical precepts are stories that have been passed down throughout history, where only the names of the titled inheritors were altered. This was because these documents and their topical relationship now belonged to a new religious inheritance.

Too many authoritarians have taken these scripts and tried to apply their references to landed places in society as an aspect of life in society, whereas they represented landed points in the Heavens. At times, the universal titles were given land titles of holiness, but in many cases this history had no bearing to a life lived on Earth.

Therefore, we find that the Historians have often tried to insert a culture and a city where it never existed as an inheritance on Earth. When unearthing old civilizations they would naturally seek out the ancient documents to try and verify the name of the civilization. Whilst the documents they reviewed discussed the heavenly code they presumed it was discussing life on Earth.

The pyramid of KHUFU, for instance, states this building structure, as a presence of holiness, is the 3rd and highest value in the passing over value in the Heavenly ARC as a point. KHU was referenced via AKH and also AKHU, as the ibis or phoenix, as a spirit and radiant shining one. This represented the term of the transfigured dead ascending to heaven that dwell among the Gods or the immortal pole stars.
FU is associated with RED as it is the red wave in the Heavens that splits into 2. As the Gods build the power of the Heavens via the mound-wave rise and fall values that reach peak points, this is what the pyramid as the stone builder in Heaven represents as an Earthly value.

As the ARC is recorded, it is a dot by dot point matrix, as the attributes of the great arc found in the Heavens as a mirror virtue, the space upon which we reflect. The stars rectify how their alignments align to precession as cycles. Cycles = the plan for the constants, why everything follows an energy blueprint that is mirrored from the Heavens into ALL of creation.

Star of Bethlehem – the star of inheritance verifies that it is the Star cycles that involve a constant/squared formula = HEM = weave of binding the holy cloth holding the holy body of the Heavenly spirit = wave transmission.

BE = the point value gained by the measure of L hence point calculus for the dimensions = BEL

The Alpha inheritance is therefore via the term equated as A+BEL.

TH = the multiples that occur after the 1-2-3 of the Mother inception (3 Queen pyramid’s as AIN 0-00-000). Thus fourTH-fifTH-sixTH etc. equate to the after term as the 3 King periods inheriting the ARC journey over.

LE = cross of the wing from God EL forming as the reflection function of the WING VIRTURE – LEEL meaning law – glorious.

The Wise used their lettered system as a meaning to model via a “glide construction”, a linear account of points verifying activation of energy – angulated portholes via the Sacred Geometry. This produced a coded language where speculative fiction existed within the narration. This
enabled their meanings, in relation to the semantic potentials and their links, to remain hidden.

HEM = stitched in boundary = held statement. This is because H = the Magic of the ‘I’ to ‘I’ virtue I-I, ‘E’ a vow of the wing EL was a passing over term from A/alpha to ‘I’ and it was given a 5th placement because HAND of God passes on. ‘M’ gained the middle value in time as the 1 over and hidden recording in TIME 12+1 as 13. 1,000 was this inheritance term.

So the Universal Code verifies that it is laid out on the ground as a measure undertaken by the Priests to mark forever the holiness of the God account in the Heavens.

3 PYRAMIDS AT GIZA

3 GIFTS – 3 WISE MEN

- **Elymas** ("Wise" in Arabic) is another name for **Bar-Jesus** ("son of Jesus").
- WISE = 3 in flight THUS **EL wing by MAS** = 12 as birth of each 1 point.
- Thus across the bar of 12 is a new term in time.
- Son of Jesus is therefore equated as the next off-spring passing the zero quantum of Mother 0, where the 3 gifts begin the term in TIME.

EL-Y-MAS rectifies Y is the cross by letter into the 3rd ring in time under the LAM value. *(See letter in time equation in document).*

**ABBA = HOLY CLOAK – WRAPPING OF THE BODY** as AB is reflected to BA as the term for 1 O as 60 + 20 “to” value.

20 in the LAM *(reference time clock in document)* takes the force of potency (T) at the 20 “to” position.

To gain this value ‘A’ begins and ends in ‘A’ as the beginning to end term.

```
A B C D E F G H I J K L M N O P Q R S T = 20 time chronicle
U V W X Y Z A B C D E F G H I J K L M N = 40
O P Q R S T U V W X Y Z A B C D E F G H = 60
I J K L M N O P Q R S T U V W X Y Z A B = 80
C D E F G H I J K L M N O P Q R S T U V = 100
W X Y Z A B C D E F G H I J K L M N O P = 120 = 3 cycles LAW MOSES
```

**MAGI SECRET = KEYS**
Bar-abbas = ACROSS THE BAR = ROD OF GOD = HOLY WRAPPING

ROD OF GOD = RED WAVE split into 2

Hence 2 of JESUS terms as the 2 SONS of inheritance against each other as the **GREAT SPLIT IN THE HEAVENS** as Christ 1,000 value and Satan 1,000 value.

120 + 120 + 120 = 360 O as 1 cycle = 3 EYE value

**120 = left eye in Giza, crossed middle eye by TIME, returning to right eye value at 2012**

2012 time value ARC OVER takes a point landing across the Sahara to West Sahara as the death and new birth in time.

As the arc over is a HORN value from the head of time then Mithraism and its statement can also verify the journey. The Persian Mithra is found in the Veda hymns – Avesta as Mitra as God of Light or Varuna. As Upholder of truth = righteous value of the return.

The tenth Mihir Yasht is the dedication to heavenly light, who first reaches over the Hara. The code to the ARC value is SA hence sa+hara = Great Arc of the Mother or Sarah value.

Relevant to the Atlantis terms of the rise from the great deep of space is found *before the undying, swift-horsed sun; who foremost in a golden array, takes hold of the beautiful summits, and from thence looks over the abode of the Arvans with a beneficent eye!".*

- **He was the genius of celestial light**
- **Appeared before sunrise and at nightfall went over the earth after the setting of the sun**
- **Surveyed everything that is between the earth and the heavens.**
- **As the beneficent god of light, the dispenser of physical blessings**
- **His light fostered life and happiness and his heat made the earth fruitful.**
- **The lord of wide pastures.**
- **Ever waking, ever watchful" god**
- **Hundred ears and hundred eyes" constantly watched the world – C = 100.**
"Break not the contract (mithrem), O Spitama! neither the one which you have entered into with one of the unfaithful nor the one you have entered into with one of the faithful who is one of your own faith.

For Mithra stands for both the faithful and the unfaithful, the factors for the ARC split and light statement of 1 against the other via force of application. Following the A-B-B-A term, each line represents a value:-

T = POTENTATE  
N = NORTH AND POINT  
H = EYE TO EYE I-I magical H  
B = SECOND STEP INTO DESTRUCTION  
V = HANDING OVER FIVE VALUE  
P = SPLIT OF HEAD VALUE IN TIME Φ

MAT-T-HEW – 1.18 Now the birth of Jesus Christ was on this WISE

Gifts = gold-frankincense-myrrh = GOLDEN NUMBERS-ESSENCE = combustion (incense-ash) and ene generation “oil” of combustion = holy return in science.

The Genesis of the wave return involves induction, as the Philosophy of the Stone relates to points in time when the time paths are altered.

Snake/Serpent = STAR CALCULUS for wave return

3 = TABERNACLE EQUATION = Fibonacci sequence Gold-Silver-Bronze (tin).

Bronze snake – Book of NUMBERS, the NEHUSHTAN

CUSH to HUSH equates C 100 to magic H “tan” = skin/seal  H = 60 in the key but 8 in TIME. H is also at the “20 to position in time. 3 across time = 3 x 20 = 60.

Cush is the black in the seal (black skinned) – west of the Red Sea = red wave split. Black of skin = space and zero quantum.

O+ne = 1 ROD VALUE, O+ne hush (quiet) to tan in Ne-hushtan

NEHU = what is hidden
The body of the Goddess 0 term reveals what is hidden beneath the veil in space, the quiet or peace position that is hidden.

So the 3 TERM return to the Gold of the Goddess hidden terms of the AIN SOPH AUR 0-00-000, 3 placement or the 3 Queen pyramids before the Great Arc is calculated.

Matthew-Mark-Luke (3)

Matthew = the hew/cut Chapter 4 = 25, 4 x 25 = 100 C in Cush
H = 8
We need to gain Hush equation

To gain the LAM escape in time we cross as the LAME. This is to gain the CHI or spirit breath value.

Chapter 8 Matthew when he was come down from the mountain, great multitudes followed him, and behold there came a leper. At H 8 = the value of down in the wave value.

This equates to N = point.

I = 9
Chapter 9 Matthew and he entered into a ship and passed over, and came into his own city.
This is because crossing = Universal Ocean “on the wave of space” the great arc. Split in the wave.

Aligning the Giza Pyramid function to the Tabernacle sequence as the Universal Genesis equation is via the spatial measurements.

In the Sacred See TH+ISIS JESUS as the equation reveals the golden measure of the Mother/cross sanction or the wrap across the bar/rod term.

The Most Holy place 10 cubits length-width-height
Holy place 20 cubits length-10 width-10 height creating the ratio of 2:1
It is also expressed as a 1:1 ratio.
The HEM is the courtyard 100 cubits length - 50 width as 2:1 ratio in Holy.

Time is involved in the wave motion, where we approach the acceleration, the formula expressed as $F = ma$ as force – mass – acceleration. As the Alpha walks on the wave, and space is the Mother womb, then $F$ is equated as the split in time function position 6 in time.

Placing the letters in the time value 6 = $F$ the Virgin number.

Using the Giza values and their triangulations = law peak values is to rectify how the 2:1 ratio value of time movement via pyramid calculation is factored.

This is to use 3 as the point of transfer and revolve the measurement.
To find the magical feature is to research the Sepher Yetsira of the Hebrew values as SH-ABA-T-AI. AI = pain and sorrow = POINT VALUE.

This is linked to the value of SA-turn, why the SA-UL and SA-MU (40)-EL values align to 63 reign term in the King lineage of TIMED values.

The Shabatai builds a contained place for Aleph = 1,000 value and cut as AXE. This is the vertical axis of the 5th and 6th Sephirot related to the 72 bridges of Hesed and Gedullah.

EL-der as crossing by wing virtue of REDintoDER = AB-RA-H-AM WHITE-LION-UPPER WATERS.

The cross is AM into PM and 8, as the H inductance, is the interchange value o 60.

**SY IV: 5**  *(This is) in what manner was bestowed (the) kingship on Aut (Bayt) in (by) Hhaim (the living) and bound (a) crown on it and created with Schabatai (Saturn) in the universe and Yom Rishcon (Rishon) (the day of principle) Beschinah (in the transformation) and Ein Yamin (right eye) Benefesch (in the individual). *(www.psyche.com/psyche/lex/sy/shabatai.html)*

Crossing is therefore from the OLD = left into the NEW = right and righteous return of the luminous one = Satan.
Old = Trumpets  New = 2\textsuperscript{nd} Coming  
Old = Day Atonement New = Judgment  
Old = Tabernacles New = Reign 1,000

So we need to develop the cubic values to gain the Giza calculations for 3D space as the isometric term. These values correspond to the Tabernacle of Moses – Gematrian word values.

**Value = 6 sides-8 corners-12 edges**

12 edges ├─┐ └─┘ at 50 value = 600 GREAT ARC TRAVEL.

Noah lived 350 years after flood with total days = 950.
950-350 = 600

From position of arc, NO begins the value into the term of the heated rise as the GREAT ARC into ON = NO-ON 12 value of heated rise.

We look to the 3 wall value as 1 passes III = 3 pillars and 3 eyes.
Tabernacle = 48 boards = cube with 6 faces x 8 corners 6x8 = 48
1,000 = ALEPH = AXE to cut wood for boards of ARC – 4800
ARD = plough, thus ARC changes into ARD
BO + ARD = tabulations for magnetic vectors = B\_o and B\_1 define the linear source function versus the continuum - optical depth at line wavelength: B(z) = B\_o + B\_1 z

3 walls = 48 boards.
48 = OOOO 4 faces in TIME value

When the Face of God Fills the Horizon: Psalm 68:2-4 – God 1-4 generates light and splits light.

20 boards in North WALL = AT – time chronicled
20 boards in South WALL = AT – time chronicled
6 boards in the West WALL – time split
2 corner boards in the sides West = TOTAL 4
CUBE = 6 faces x 12 sides = 72 God’ s golden measure.

48 boards = 72 cubits as 48x1.5 cubit per board = 72
Tabernacle = 3 outer and 3 inner surfaces as 8 corners x 12 sides = 96 as the double feature of 48.

96 covers the exposed board faces of the Tabernacle 21+8+21+20+6+20.

9 in TIME is the ARC over value to inheritance at 3, 9 planes of symmetry relevant to the cube form = 6x8x12x9 = 5184/48= 108.

Ground coverage therefore equates 1.5x1.5.48 boards = 108 sq.cu.

The gifts of the 3 therefore equated to the term of 3366 as a holy reference of remembrance.

Holy of Holies in-out = 3 walls and entrance 4.5+4.5+4.5+4.5 = 18 representing GOLD in Hebrew.

Center point in-out 3 walls as opposite corner values = angled 3.366 degrees

Inheritance value 1,000 = cubit cubic volume 3.366 x 1000 = 3366

The word values for myrrh and frankincense = 2322+1044 = 3366

So 4 values in time = 1-11-111-IV – V – VI-VII-VIII-IX

7 PILLARS to point of rest at hand and then cross X

Hand and head both have the values of time points 168

Having 3 outer and 3 inner surface functions in the WALL status is where the cube factor demonstrates the appearance of a hexagon (the magic) value of CH in Christ as C 100 and H the eye to eye passing value. This is when all 6 surface planes of the cube are made visible = the cut in time perspective.

33 the life of Christ to death value = combustion sequence in transmission value.

In the Tabernacle 3-3 = Revelation of 22 the surrounding boards of Holy of Holies, simply because the Tabernacle = seal for the holy spirit.

22 x 1.5 cubits = 33
33 x 1.5 ground value = 49.5 as width x breadth x 22 boards equating to 1.5 x 1.5 cubits x 22 = 49.5 square cubits.

X value in the time chronicle = 24 thus (2) faces

Y value = time chronicle 3^{rd} face

33 is therefore relative to the opposing corner of the cube as y-z orientation, as in crossing time by 2 bodies YZ is the turning 180 degrees on Z axis as the 1 before and the 1 after virtue = hexagon appearance = 2 lives of 33 “reflected” value across of the spirit.

33+33 = 66 as the Generations of EL wings into the split value of red-der. This covers Abraham-Isaac and Jacob.

So 33+33+33=99 as 66 revolves into the arc over 99 value. Head is at feet and head is at feet = BOW and FLEX

PSALM 99 = by hand

- The LORD he sitteth between the cherubims; let the earth be moved.
- The LORD is great in Zion; and he is high above all the people.
- Righteousness in Jacob.
- Exalt ye the LORD our God, and worship at his footstool holy
- Worship at his holy hill; for the LORD our God is holy.

Abram was 99 and Sarai 90 when God made a covenant with him, promising him and his descendants the land of Canaan. Abram became Abraham and sarai eventually becomes saraH.

Contradictions are therefore valid in the calculations as the journey of C = A to N point from N to A – doubled AA into N point value.

The spirit breath AH moves to HA, thus King value as OO = II (2) states
2 and 20 (time chronicle) was AH-HA Z(2,000 of 2 value inheritances 1,000) to I pillar = AH breath as reign II Kings 8.26.

Time event is chronicled as 2 = 40 and 2 years AH-HA-Z-I-AH reign II Chronicles 2.22 Revelation. OM-RI father of House AH-AB = journey 42 years where AH – AH descended.

The star of David – diamond cubic structure 21-22-23 degrees = 66 as 1-2-3 virtue in the Pyramid design at Giza as great-greater-greatest. From God to Christ = 77 generations as House to inheritance value = 21-22-23 Abraham-Isaac-Jacob. SUM = 3 angles x 12 TIME locations = 66x12 = 792 as the value of JE – SUS nose point of pig – Sanskrit wild boar nose horn.

Star = out of Jacob = IA generics from points (corn cob) the CORE VALUE.

So the point value 66 as the mass of the core = value for soul points as the 66 souls that went into Egypt with Jacob = NAT + ION pillar of the TAN (skin) inversion = the shaven or shorn.

Jacob = 12 Sons = 12 pillars of time as point values

So out of IS = Mother/Son value of ISIS = I pillar and S = sine on space as SON value out of IS-RA-EL wing value of the righteous ascension = Son and Nation.

Out of Egypt I have called my son is the ARC values of the Magi-Wise calculus as the great journey in the Heavens, a CODE that represents the value found within ALL matter created from SPACE AND MOTHER WOMB.

From the great ARC is the value of HORN as the cow-bull terms in Egypt as Hathor-Meri the Su in the house of 1,000 years (Massey). N = landing point. So the lunar cow was in the house of a 1,000 years, bringing forth the child as a calf in the stable, which was rebuilt for the OXEN.

This is because the heavenly calculation altered arc into the ARD = plough, where manger from manducare, to eat-chew, is the HOLY HEAVENLY CONSUMPTION, beginning to END = the EAT or SUPPER TERM as the APT. The ass represented the sun god Atum-IU.
So what does the GOAT have to do with the Tabernacle?

God is the GO statement in heaven that splits the time body into halves $O = D$ function. D-A-VI-D from split to split of alpha = 6 the Virgin Number.

The CUR, *dog*, is the GOD reversed as the ARC has a backward and forward journey in its union statement. GOD-DOG: G to G moved from OD into DO and OD = the odd term *point of a weapon* $\Delta$ Law value.

$G = 400$ hence arc over gains the mass value.

TAIN = potentate force + the AIN of Mother 0 value. TAIN, *thin plate of tin or foil for mirrors*.

Mother is the holder of the mirror as Goddess, and Son is the plate building TEKTON carpenter. TIN, one of the facets in the Tabernacle BRONZE.

Hair in the code = passing value H magic of the AIR spirit breath as a sliver value of encoded information = DNA in a hair. Breath AH-HA value.
TIME therefore recorded via thin values, where mass of these values = great strength. CUT of the hair value = strength lost. Strength of the Heavens = pillar.

Goat hair curtain = 11 panels joined as 5 and 6 panels doubled for extra strength with width of 30 cubits. 11 as K = cut in TIME as the doubled PSI value spirit breath Ж, K is the half term. Length = 40 cubits LAW TERM.

The goat’s hair is greater than the linen (white light), where the wrapping over the tabernacle boards = longer drop = longer wave value. The taches apply to the weaving value of in-out. Total 660 curtain divided by 50 = 13.20, 0.88 wider than linen 12.32.

Revelation 1:15 where 50 divided by 15 = 3.3333. *And his feet like unto fine brass as if they burned in a furnace and his voice as the sound of many waters.* This is because sound = wave and walking on wave = space universal ocean.

The next step into 16 = 7 stars right hand – out of mouth 2 edged sword and was the sun in strength. Mother son = Moon and Solar as calculation points and cycles. 1222.5 solar years (1240.2854 yr) = 1260 lunar years (1240.2852).

So God weaves in the Heavens as the stitches in time O value SEWN as south-east-west-north, the cubing factor for weaving the body constant value O within.

60 = O time value
LOOP VALUE = back in time by 10 as GOD - DOG
50 = LOOPS at 12.225 width
Weave = 50 buckles = back-forward value = breadth 0.484
Pause value = 7 and cycle o = 7
Ain of Mother = 000 value
SPACE = 0.007

\[
\begin{align*}
50 \times 12.225 &= 611.25 \\
50 \times .968 (2 @ .484) &= 48.40 \\
50 \times .007 &= 0.35 \\
\hline
660.00
\end{align*}
\]
**Tabernacle width:** 264 divided by buckle = 13.20 = 20 across the roof
Chronicle of Time A-T
Drop = 15 each side of buckle

LINEN = 264 divided by buckle = 21.428571 = 22 across the roof
Revelation
Drop = 14 buckles each side

Revelation = 22 equating to 2 cuts in TIME of 11 each = PSI spirit breath Ж
11\textsuperscript{th} panel = concealed under 10
484 as 22x22 = concealed in brass buckles
Goat HAIR = strength = 968 as 22x22x2 = witness to the WAY.

11 = the 11th Adam generation - Shem was born = the 3 SONS IN THE ARC
11 = the 11th generation after Shem - Jacob was born
11 = Jacob's eleventh son was Joseph = coat = many colored band in weave

Δ
11.1
11.11
000111 = pyramid coffer measurements

11.1 = sq ft of one end of exterior of pyramid coffer
111 = Rod (as in measuring rod)
111 = The Most High (Daniel 4.32)
111 = House (John 14.2 - My Father's House)
111 = base perimeter of Pyramid Top-stone in Royal Cubits

484 - Height of the Pyramid of Cheops

Ч CHEOPS-KHUFU – CHE is related to the name of Joseph – God will multiply, it is called the fruiting tree and it is also a symbol for CH as great change, as the Y carry over value of the WISE in EL-Y-MAS.

OP was originally P because p splits as the pi O into phi virtue \( \phi \). \( O+P = \) the operation value of the CODE as O full into half pass on term.
The biblical quotes therefore rectify how they are associated by verse through their letter equations = name value and travel by time and space to the very essence of NATURE itself.

These are the PHI values from the PI values, the universal constants, the constants applied by the timed virtue, points across dimension.

Therefore, history is not what we thought it was.
SACRED SEE ©
SEE = ANCIENT GODDESS SECRET “under the veil” = God body.

The secret of the God body and the veil is the “evil” clause of the veil -
evil = levi, the joining the lewe.

Goddess in Heaven held the mirror, because she creates the reflection function.

Reflection therefore equates that the equations are reflected “terms”
using letter values.

A letter passes over information in an envelope (seal).

PYRAMID = amid the pyr by fire, formation by points – heat transduction.

The pyramids cover the sanction of calculations as a Heavenly Code relative
to the “arc” over, the rise of heat by flux in light as rise and fall values
linked to “points in time”, the movement in space. High rise is therefore the
NOON equation of the ARC when heat is at the high point.

The secret sanction of the “stone philosophy” covers the pyramid and what
its terms state as a King lineage. It is the King in the Heaven that is the
heralded hierarchy of head upon head and head over head. Hence the
pyramid body (Giza) as the calculations in the Heavens climbs in size
through the passing over value of passing by the arc through time O+O+O =
the constants and the waves.
The names of the Kings therefore are very relevant to the ancient secret, as their terms relate to the Code of the Heavens, the arc and the waves of transmission involved in the movement of the great arc over.

The golden ratio $1.618034 \Phi$. The phi with a small "p" is the decimal part of Phi, 0.618034.
The Magi secret is PHI, Mother Goddess in the Heavens where 1 as the I eye is found in the value of PHI as 1 is born from the womb of space = nothing. O value Φ. PHI-LO look and see sophy.

Thus PHIPHIPHI shows us that P to P create the building process of the HIP values ΦΦ, where the SEE sacred factor is I-I eye to eye or the magic of H. Between each cell I joins the 3.

The HIP therefore is constructed via L why PHI-LIP is a holy equation in God’s Code. Philip lover of horses, as L = the cross and the 4 horsemen.

Philip is a 3 list factor of the rise “apo”, the STO head over head term value of the 3 linked by les. 3 forts (posts) are therefore the fortification of the ARC over.

This list is Matthew – Mark - Luke, where PHI-LIP is the 5th Apostle as God hands by 5. Nazar-ene is the founding nose point equation, Law value of the mount, hence
Philip told Nathanael that they had found the Messiah and that he was from Nazareth. When Nathanael replied “can anything good come from Nazareth?” Philip simply said “Come and see.”

(John 1:43-46)

CODE = .333 dimensional cross x 3. Light travels across dimension via this instruction.

Mother = generation “ene” as Mother Magdalia =crumb who forms the loaf by generation as Magdalene.

3 of Mother BEGIN equation which follows a STEP UP FUNCTION of great-greater-greatest. This is shown in the King’ sPYramid placement.

3 CRUMBS to form the STEPS to build the LOAF = 3 of the Queen, Queen of inheritance.

ONE = ALL and AH = breath passing A alpha and H Magi magic. Magic is the C (see) value 100, C of the arc.

Pyramids = STEP EQUATION OF CROSS

This is called SEAT OF THE EXISTENT = THRONE VALUE OF THE KINGS.

KING in HEAVEN = K cut value of TA axe chop + ing the field or MEADOW = spirit fields in HEAVEN.

Δ Law = law of mount/mound/mountain = GAR spear head and also NOSE POINT

LAW = inheritance at nose point = nasar-nazar = Nazarene, the tribe = group multiples.

Law handed down at point of mount x increments of 40 – 80-120 as life x HOLY 3 journey.
O = 360 of arc and 120 is the partial arc, where we start at position 6 in time as 6 is the VESTAL number.

**Out of God’s DEN = power of lion Φ cell split into 2 via value of D = the 4 (D value 500)**

\(\Phi\text{ the value of the cross} \quad \text{as the power of inheritance + I holy eye-holy see = value ON space, why ION = pillar.}\)

2 of D = 1,000 inheritance, 1 inherited in the middle \(\Phi\)

GARDEN = equation from zero position as cut/spear head on skin of space, where 1 is created, letter I = eye, the SEE.

3 of Mary = 3 of Queen

**Virgin (number 6, the split of time \(\phi\))**

Harlot (stomach hara + LOT generations of 1 from middle)

Mother

Pyramid equation = 1-2-3 across by ARC.

Pyramid of Menkaure – HIDDEN MEANING IN CODE is divine – eternal like the souls of RE = righteous return reign 63 years

Rule ? 28 years – mek = 1 and menk = we/ aure = soft air and breeze

NO 1 POSITION of inheritance of SPIRIT BREATH = 1 SOFT BREEZE of the CHI breath inheritance in SPIRIT

Pyramid of Khafre – Reign 66 years – Rule 24-26? chephren (ren is of chi breath in time the run REN) so from soft breeze it now runs. Appearing like RA or “rise RA” = righteous ascension – construction and exegesis – transformation = TO YOU. Fre = free and used as “frequent”

This is NO 2 POSITION of inheritance of SPIRIT BREATH = RISE OVER by ASCENDING, THE POINT OF TRANSFORMATION = constant and its constructions in TIME.

Pyramid of Khufu = Medjedu – Khnum protects me = Keeper of the Nile – flood Reign 23-24 years – bringing back the dead to life.

GREAT ARC – father or shining one – FU blessing good fortune – Fu linked to “building wall”.

NO 3 POSITION FLOOD OF WAVE IN TRANSFORMATION (3 OF ARC) AS SONS in the Heavenly Code.
Building = sound wall in the Heavens by power of each LOT.

Wall building = sound wall built up and broken down to gain power of LOT from ARC = the covenant of God arc to arc or point to point by wave = power building into FLOOD, God’s covenant power in front of mass.

Pyramids Keeper of Time = Keeper of the ARC values = GENESIS wave calculations in space.

Return from the dead is to return spirit from space as space is where the dead go.

**Mary in bible as 3**

MAT-T-HEW T to T = cross $\frac{1}{2}$ as HEW = cut, cut of PATHS in time = genesis of the MATRIX (weave)

The weave of the body O is through South-East-West-North values as SEWN.

MARY MAGDALENE AND OTHER MARY = MARK 3 MARYS and LUKE 3 as Matthew-Mark-Luke.

3 = the 1.

Mark = risen to JOHN = dark = ARC over value is light, other ARC not seen as it is reflected.

JOHN = HEAD = CUT OFF HEAD O

REIGN OF KING = REIGN OF THE FIELD = WAVE transfer in ARC. This is because K is the Hebrew TA axe value chop 1,000 and ING the meadow/field and doing factor of GOD. The GO force in the Heavens continues to split O into the D factor of half each.

D= 500 hence 2 of D = 1,000 returned value of inheritor both Christ/Satan values (rise and fall of wave)

- 63 YEARS SHARED BY SA-MU-EL AND SA-UL The King's Calendar: The Secret of Qumran.
- From Entry into Canaan there are 480 artificial years to Solomon's 4th year, of which 44 can be ascribed to David and Solomon, 348 can be ascribed to the Period of the Judges (by correcting the Book of Judges) 25 years can be deducted for Joshua (as per Josephus), leaving a balance of 63 years for Samuel and Saul.
Sa = INTEGRATIVE OR FINITE OBJECT CLAUSE so the ASS + head P = pass is by time = AGE, passage from AS-SA

ASSAGE = waterway hence isle – island as the ATLANTIS CODE of the Heavens

Walk on the waves in Heaven = Universal Ocean, hence passage is by water as the waves in TIME.

MU = 12\textsuperscript{th} Greek letter, it also means “nothing”, as 12 in TIME passes back to nothing – great deep as it crosses space. It stands for “micro” hence little points. VALUE 40 as 40 is the point of inheritance, hence little ones and its value is also WATER, the waves.

EL = WING, flight across = VALUE FOR EQUATION OF SAMUEL

SAUL is the shorter version of SAMUEL missing the MU and WING EL value

UL = UN-NUMBERED LISTS, meaning “of” + SA, hence because of the passage.

66 YEAR REIGN

66:021:013 On the east three gates; on the north three gates; on the south three gates; and on the west three gates.

66:021:014 And the wall of the city had twelve foundations, and in them the names of the twelve apostles of the Lamb.

66:021:015 And he that talked with me had a golden reed to measure the city, and the gates thereof, and the wall thereof.

66:021:016 And the city lieth foursquare, and the length is as large as the breadth: and he measured the city with the reed, twelve thousand furlongs. The length and the breadth and the height of it are equal. ETC.

BUILDING = THE EQUATION OF THE ARC IN HEAVEN = PYRAMID ATLAS = DESIGNED MEASURE OF GEOMETRY INVOLVED IN THE WAVE OF THE ARC, what is built in the matrix by point values. The building of the city, therefore equates to constant squared formulas, relative to the SOUND WALL and breaking through the SOUND WALL.
2 Chronicles 24 Joash was seven years old when he became king, and he reigned forty years in Jerusalem.

40 POINT OF LAW handing down = DOWN POSITION OF ARC
7 = POINT TO REST AND LIGHT VALUE
JO = ancient term IO Goddess HORNS = ARC TERM
From the ashes of angels = ANGLES as EL is GOD FORCE – CHANGE OF ANGLE = JOASH.

Chronicles = TIME count of 20 under LAW of 40 as 2 TABLETS = A-T reflected into TA = cut and 1,000 inheritance.

EZ-RA 4.24
Then ceased the work of the house of God which is at Jerusalem = geru or girasole “turn” to peace = 0

CODE OF THE SACRED SEE = SEE PHI RA = PHARISEE = HAPI SEER = rise epah

- Homer or Cor = 10 epah
- Lethech = 5 epah
- Ephah = 1 epah
- Seah = 1/3 epah
- Issaron = 1/10 epah

CRUMB TO LOAF AS THE GREAT RISE = heat causes the rise = ARC OVER

"From your dwelling places you will bring bread for a lift offering: [loaves] of two tenth deals [of an epah] of fine flour they will be: With leaven they will be baked: they are first fruits to the Eternal" (v17).

CODE TAKEN FROM BOOK IN THE HEAVENS = BOOK OF LIFE = HATHOR’ S CATHODE = THOTH’ S TABLETS = SECRET HALLS God’s matrix or labyrinth in Heaven.

CODE = universal wave distribution function behind all Genesis on Earth and in Heaven.
The Law of the Stone

Many inscriptions on the stone, as the Philosophy of the WISE – PHILO SOPHY OF THE STONE, are relative to the cycles of the Heavens and what the Kings in the Heavens, at that time period, bestowed upon the Egyptian community. These inscribed terms would relate to abundance and prosperity or oppression, as the seasons were predicted by the Heavenly Code.

Keeping record of these cycles was evidently a holy sanction, a sanction that meant survival or decimation via the Heavenly statement.

The earthly King was only secondary to the status of the Heavenly King and the recordings of the earthly leaders were mainly recorded upon the next sacred element of the Law, the papyrus. Therefore, many of the King references taken to be actual Earthly Kings are incorrect in their assumptions.

The term of Khepri finds that the living Kings bowed to the Great Creator in the Heavens “thus I evolved myself under the evolutions” from Papyrus of Nesiamsu (Ptolemaic Period).

As a psychic medium I asked the information in space what was a defining feature that we could use to separate the Earthly Kings from the Heavenly Kings?

The scarab was the key, as was the references to the Heavenly weave of TIME, the 2 of Nekhbet – on the basket term. The sacredness of the scarab is found as far back as the prehistoric period in the King Den of Dyn. The study of the scarab with the King inscription revealed that it would still be worn even after the “death” of the King.

This was because it was a lucky amulet if the King Period, stated in the Heavens, was one of prosperity. So it became a good luck charm. This is the letter term of HPRR, rising from, come into being itself. This is how HPRR became HPRI in Khepri, the Creation God.

The great builder in the Heavens was the greatest King inheritance, the statement of the character of the wave returns, how the SON walking in the
waves of the Heavens affected the SEASONS, as space was the Universal Ocean – the sea term.

The Great RA soul – BA soul – KA soul related to the elements of the wave in the Heavens and its return. Hence the heart, as a reference to the Heavenly Code, the Dead - Chapter XXXB stated in the Papyrus of Nu XVII dynasty - related to ALL the Chapters, as a Chapter is relevant to the cuts/slits/splits in time.

This is the Chapter of Coming Forth by Day, why the Son term relates to “green” in the X term Biblical equations, as the Son of the Great Builder found in the Khufu, as a recitation over a “green stone scarab” relative to the heart of the deceased for the “opening of the mouth”, as the heart my Mother, my heart, my Mother.

The inscription, being the factor for what is recorded in space as the heart of the stone (space is held within all cavities), is the term of the Scribe. This is NEB-SENT in the presence of the Mother, the ancient secret of OS-iris = the middle of the EYE, of the Mother’s bones.

It is in the sacred LETTER terms, as the reference of sending information abroad in a seal, that the secret of the Kings is revealed.

The RULE is substantiated as a Heavenly factor through HWFW, the Hebrew form of HAWAH, how YHWH was factored through the term of I AM as the secret code of PILLAR - MOTHER MOUND FIRST RISE in light as morning light.

YOD 10 HE 5 WAU 6 HE 5 = 26

HE, as the double term of the secret, factors 2 of WINDOW in space.

So YOD AND WAU = 16, YOD 10 is broken down by 2 of window 5 each.

This links to how the Egyptians worked out their fractions relative to the sacred terms in the Heavens as $\frac{1}{2} + \frac{1}{3} + \frac{1}{16}$.

Looking at various points in the King Line is to find 26 – such as in the 26th Dynasty AMAS-IS “the moon is born – son of Neith”.
The biblical Hophra link to Wah-ib-re “constant is the heart of RE”.

The Rhind papyrus states “a quantity and itself added together becomes 16, what is the quantity?

AHA 1st Dynasty – Horus Qa’a, Horus as the Son forms the HOURS. Last King first dynasty = 26 years

25th Dynasty Taharqa – Lord of the 2 lands = 26 years.

2 is the split of the 2 lands in Heaven and the return of the wave under the 2 terms of righteous or unrighteous. Egypt was named so after the Heavenly term.

Amenhotep II = 26 reign

Smendes = 26 years 21st Dynasty “chosen of RE”.

Nebiriraw – 13th dynasty = 26 years – Horus and 2 ladies of divine transformation

RE = Horus of Horizon
RA = IS HORUS OF THE HORIZON as the pillar term of passing over OS-IRIS-IS = ISIS reflected, the 2 LADIES.

The Sons of Zabulon in the bible under Number 26– ZEBED is gift – 3 SONS – SACRED-EL ON-JAH EL EL with 6 Sons. EL = WING, hence 2 wing terms OSIR – IS into IS-IS.

Zabulon discloses by way of the sea- Universal Ocean – which sat in darkness saw great light and to them which sat in the region and shadow death light is sprung up - Matthew 4:15-16

So the sign via ONE-simus is the point Je-SUS A nose point SUS – pig (horn) of inheritance. Thus the head O Peter, the repeat repetere is Sim-ON Where the alpha/A at the point N is drawn upon from the great deep of SPACE, the well = Andrew. Casting a net into the sea, for they were fishers.
The NET or MATRIX is formed by “throwing out”, the hyperbolic function. This is the GREAT FEEDING in the Heavens, where the bread is molded by mound rise or fall, EPAH of the RISE EPAH – SEE PHI RA term. The fish are caught in this HEAVENLY NET.

This is where we find the great whale, also a function of the Heavenly Sea, the stomach where the Great Flood is held NOAH-JONAH. Jonah = noah + J = Son inheritance. ‘J’ was previously ‘I’, and IO = Goddess of horns. ‘J’ was factored to be a sacred letter because it split and “arced” from ‘I’ in PHI $\phi$.

As shown above in the hyperbolic cross, on each side in the transmission field the “mouth opens”. Hence E = AT time, the great consumption factor.

Thus from NO into ON = position of ‘J’ taking the great flood of NO-AH spirit breath into J-ON – AH.
As 32 is the Elder factor, 16 as YOD and WAU through HE x 2 as 10 is found in the Egyptian equation – \((3/2)x = 16\), \(x = 32/3\), \(x = 10 2/3\).

The Christ factor of the death = 33

This problem is expressed as ‘q’ quantity – its 1/3, its \(1/2\) and its 1/7 added together to become 33.

The answer becomes 14 \(\frac{3}{4}\) 1/56 1/97 1/194 1/388 1/679 1/776 – problem solved by Ahmes as 28/97 as 2/97 and 26/97.

To find the value of 26 the solution continues \(x + (1/3)x + (1/2)x + (1/7)x = 33\) via
\[97/42x = 33, \quad x = \frac{1386}{97}, \quad x = 14 + \frac{28}{97}\]
\[2/97 - 1/56 = (112 - 97)/(56*97) = 1/679 1/776\]
\[26/97 - \frac{3}{4} = (104-97)/(4*97) = (4 + 2 + 1)/(4*97) = 1/97 1/194 1/388\]

(Reference: Wikipedia)

The building of the Pyramids has rectified that certain pyramids seemed to be crassly designed with red pyramids and also bent pyramids. This seemed to clarify that the building of these Pyramids meant their designers did not have the wisdom of PHI, the inheritance wisdom of the Sacred Mother 0 factor in their building technique.

Instead the Law of the Heavens proposes the reason for these structural differences are, the monuments representing the CODE at point values in time.

Using the data of the Heavenly Code as 26 + 1000 is to recalibrate the structure, as shown below, as date and orientation of the pyramid Ruler – accepted accession date – orientation D-west side of pyramid – orientation D-side of pyramid and recalibrated accession date.

Djoser 2640 BC , + 1809 (ref. 3)
Snofru+Meidum (1) 2600 BC (-2/+17) -18.19 (ref. 11) 61.0 -20.69 (ref. 11) 61.0 2526 BC 6 7
Snofru±Bent Pyramid (2) [2583 BC] (-2/+11) -11.89 (ref. 12) 6 0.2 -17.39 (ref. 12) 6 0.2
Snofru±Red Pyramid (3) [2572 BC] (-2/+9) -8.79* 6 0.2
Khufu (4) 2554 BC -2.89 (ref. 1) 6 0.2 -3.49 (ref. 1) 6 0.2 2480 BC 6 5

Amenemhat III 1853 BC + 15.79 (ref. 14)

(Ancient Egyptian chronology and the astronomical orientation of pyramids; Kate Spence; Faculty of Oriental Studies, University of Cambridge, Sidgwick Avenue, Cambridge CB3 9DA, UK)

The measures of the Heavens were depicted in the terms of vessels – wine as the holy blessing in Heaven. The seeds to make the holy bread were a holy measure of the holy wisdom. The cattle represented the mass and horn terms of the heavenly ARC, the power of SOUND, the ability to LEAP across the great chasms in space via TIME.

These measures were cryptic values relative to the sacred values calculated in the BOOK OF THE DEAD. This related to the terms of the Heavenly spirit, how space is wrapped into a BODY by following a universal measure that equated to a universal code of conditions.

This sanctified how everything was measured, wrapped and then unwrapped, as the process from space into a body and then the decease of that same body.

By looking back in time we assumed that, in moving forward, we have to be far cleverer in our designs and our wisdom than those who had preceded us on Earth. We were very wrong using this impression because time denies this supposition.

Time states that wisdom is recorded as a point value in TIME and although TIME progresses it also returns as a wave value to STRIP from the value that was gained as a step from the point.
Therefore, we are only at a position in time as a step forward in our evolution that has evolved wisdom from another GREAT PLACE in our history. This was because a huge amount of energy was stripped from the wave transmissions in our pre-history, a history that wiped away our ancient inheritors of the GREAT WISDOM.

TIME has eventually allowed us to once again receive the wisdom of the ages that we had left behind us in our journey through time. This is the rise of ATLANTIS, the Heavenly Code of our precession, a CODE built into the landscape by the Egyptian ancestry, KEEPERS OF THE CODE, the secret of our Ancient Past, the Sons of the Righteous returns.
